ACCESS CONTROL

In today's security conscious society more and more businesses are requiring restricted access to their premises. Trace Electrical offer a complete design, installation, upgrade and maintenance package.

Access control systems protect your property, your personnel and visitors. You can monitor precisely who is on your premises at any time and manage any site no matter how large.

Trace Electrical offer one unique package, at one price, to all of our customers.

What can our packages include....

- Digital access systems
- Voice access systems
- Video access systems
- Biometric access systems
- Individual door entry
- Fully integrated IP networking solutions.

Systems can be advanced, restricting access to high security areas whilst allowing access to general areas, or a simple single door entry.

We can provide vandal resistant equipment and a wide range of door releases including electronic catches, electro magnetic releases, gravity bolts and many more.

Personnel access and restrictions can be altered at the touch of a key; avoiding the cost of replacement locks should keys/ fobs/ cards be lost, stolen or not returned when an employee ceases employment.

Why Trace Electrical access control...

Access control gives the client full control and security over who enters their premises and where that person can go on the premises. The relative cost is minimal, for the peace of mind and security these systems offer.

We have fitted these systems to nursery groups, accounting firms, solicitors, shops requiring restricted access after hours and blue chip corporations the list is endless.

We have had 100% satisfaction with our product and service. By employing Trace Electrical you would let us do the hard work for you. We provide you with cost effective access control systems and an unsurpassable service.

Please look at our unique product, we know you will not find equivalent or better.
