## CCTV - INSTALLATION & MAINTENANCE

Since 2003 the Home Office has invested £170,000,000 on the Crime Reduction Program CCTV Initiative. A Home Office report on police perceptions of CCTV states:

*“88% (of police officers interviewed) said that CCTV had a positive impact on their job and the same number felt that more money should be spent on CCTV. CCTV is seen as a vital part of the policing toolkit. Its preventative power allowing officers to pre-empt trouble, its use as an extra set of eyes or for intelligence gathering and the deterrent effect were all seen as benefits ”*

Source Home Office Website.

We can meet all your CCTV needs. What's included in our package...

- We employ guidelines set out by the Police Scientific Development Branch. Our product awareness allows us to offer a superior service incorporating parameters such as definition, coverage, location and peripheral vision.
- A 20 point on site survey as standard, identifying potential weak spots, likely points of entry, areas to be alarmed and much more.
- Design options including monitoring, detecting, recognition or identification.
- Options of infra red, digital / analogue, static / pan & tilt, speed domes, vandal resistant, computer monitored systems, remote access, remote monitoring, colour / mono, real time / time lapse / loop framestore, and many more.
- Extra lighting can also be implemented.
- Calibration of all systems and tests under various conditions to ensure optimum results.
- A 24 hour online technical query access for all customers.
- Maintenance and upgrades.

### Why Install CCTV...

The short answer is for security and crime prevention. CCTV is evident in all areas of our lives from city centres to residential properties, from banks to small businesses. CCTV...

- Prevents crime.
- Reduces vandalism.
- Reduces anti social behaviour.
- Monitors your property and vehicles.
- Footage can be used in prosecutions.
- Can record all persons entering and leaving your premises.

### Why Trace Electrical...
