FIXED INSTALLATIONS TESTING

Fixed Installations are all electrical systems that are permanent to the structure of a building and conduct electricity around that building. This includes hardwiring, sockets, lighting, air conditioning and large plant machinery. The Health and Safety Executive demand that all fixed installations must be kept free of danger, stating...

“Electricity is present in almost every workplace and has the potential to cause death or serious injury. There are well-established measures to reduce risk, and the HSE provide a wealth of information to help employers implement them. I would encourage employers to take a fresh look at their workplaces and existing electrical procedures.”

Source Health and Safety Executive.

Trace Electrical offer one unique package, at one price, to all of our customers.

What's included in our package...

- 11 point consultation and on site survey.
- Mapping and planning.
- Rewiring service when needed.
- 40 point visual inspection of circuits in compliance with the IEE's 7671 wiring regulations for periodic inspections of Fixed Installations.
- 14 individual tests on each circuit, using the latest wireless technology and interpreted by fully qualified electrical engineers.
- 19 point report, in hardcopy and CD Rom format, including certificates for every circuit tested.
- A written reminder of when retesting is due.

Why test fixed installations...

Should the worst happen to your company would you be able to prove compliance with Health and Safety legislation? The IEE BS 7671 Note 3 provides recommendations on fixed installation testing intervals. Trace Electrical fixed installation testing gives you peace of mind you could avoid...

- Up to a £20,000 fine per violation of legislation.
- The death, or injury of an employee due to an electrical fault.
- Costly law suits.
- A disabling electrical fire.

Testing provides...

- Documentation often required by insurance companies.
- Documentation and certificates for Health and Safety Executive inspections.
- Protection for your staff from electrical hazards.

By employing Trace Electrical you would let us do the hard work for you. We provide you with cost effective PAT Testing and an unsurpassable service.

Please look at our unique product, we know you will not find equivalent or better.
