Welcome to Trace Electrical Limited. We have over 30 years experience of the electrical industry.

- We adopt a proactive approach with an efficient service, providing best advice, practice and products.
- Our priority is to protect every customer and their staff from the dangers of electricity.
- Our ethos is to provide an unsurpassable benchmark accompanied by a proficient, competent and affordable service.

The electrical sector is now the most regulated in the U.K and can be very daunting and confusing. Our aim is to clarify the bewildering regulations for our clients in a clear and understandable manner.

## ICT INFRASTRUCTURES

In today's world of digital technology ICT System's are an integral part of progress and the office environment. Reliability of these systems is often paramount to the smooth running of any business. When systems fail, technology shuts down, data may be lost, client records become inaccessible and workplaces are left disabled. This inevitably affects the profitability and productivity of many companies. We therefore deliver reliable and effective systems that can be as advanced/complex or simple as the client wishes.

Trace Electrical offer unique packages to all of our customers.

What services do we provide...

- Installation and upgrade of cabling systems including network sockets, trunking and floor boxes. Cat5e, Cat6, fibre and backbone.
- Partnered with Video Conferencing specialists allowing video streaming over the network
- Uninterruptible power supply systems (UPS) that ensure vital equipment is powered even during disruption to your standard power supply. Including emergency backup supply.
- IT rack installation, including managed / non managed switches, routers, patch panels and cabling. We also have integrated "Systems Environment Monitoring" for critical IT systems, which can be monitored 24/7 by Trace Engineers providing emergency alerts and response.

### Why employ Trace Electrical...

The short answer is for peace of mind and because reliable systems are advantageous to any business.

We have installed ICT infrastructures and video conferencing facilities for blue chip corporate companies and for smaller businesses. We are able to perform all installations outside of usual working hours, to minimize disruption to the client's businesses, at no extra cost.

By employing Trace Electrical you would let us do the hard work for you. We provide you with cost effective systems and an unsurpassable service. You receive a reliable, safe ICT system that enhances your office performance capabilities.

Please look at our unique product information. We know you will not find equivalent or better.
