PORTABLE APPLIANCE TESTING

Portable Appliances are any electrical equipment that have a lead (cable) and plug and which can be easily moved from place to place. PAT Testing all electrical appliances ensures that all legal requirements are adhered to. The Health and Safety Executive recommend that...

“The best way to find out if your electrical equipment is safe is to have it inspected and tested by a person who is competent to do so. A reputable servicing company that deals with the type of equipment should be competent to check its safety. The test should be carried out often enough that there is little chance that the equipment will become unsafe between tests.”
Source Health and Safety Executive.

Trace Electrical offer one unique package, at one price, to all of our customers.

What's included in our package...

- 11 point thorough visual inspection.
- Comprehensive testing using the latest wireless technology and interpreted by fully qualified electrical engineers.
- Barcoded, scannable, equipment.
- 18 point hardcopy and CD reports including certificates for every unit tested.
- A written and verbal reminder when re-testing is due.

Why PAT Test...

The short answer is for safety and because it is economically advantageous. Should the worst happen within your company would you be able to prove that you had complied with Health and Safety legislation?

Trace Electrical PAT Testing gives you that peace of mind and avoids...

- Up to a £20,000 fine per violation of legislation.
- The death, or injury of an employee due to an electrical fault.
- Costly law suits.
- A disabling electrical fire.

Testing provides...

- Documentation often required by insurance companies.
- Documentation and certificates for Health and Safety Executive inspections.
- Protection for your staff from electrical hazards.

By employing Trace Electrical you would let us do the hard work for you. We provide you with cost effective PAT Testing and an unsurpassable service.

Please look at our unique product, we know you will not find equivalent or better.
